

Amendments to subsidised local bus service contracts

Committee Operations

Date of meeting 10 November 2017

Date of report 16 October 2017

Report by Assistant Chief Executive (Operations)

1. Object of report

To notify the Committee of amendments to subsidised local bus service contracts since the last Committee.

2. Background

It is necessary to adjust subsidised local bus contracts as allowed for in our corporate governance to react to the fluidity of the commercial local bus network and ensure that, where budget allows, service continuity to the travelling public continues. Appendix 1 details the amendments to subsidised local bus contracts conveyed since the last Committee.

Processes continue to ensure that all subsidised local bus service contracts are monitored and reviewed on a sustainable basis, whilst meeting obligations in terms of best value, therefore ensuring that scarce public funds are appropriately dispensed.

3. Committee action

The Committee is recommended to note the amendments to subsidised local bus contracts, in accordance with established corporate governance, financial regulation and standings.

4. Consequences

Policy consequences: *In line with Regional Transport Strategy.*

Legal consequences: *All amendments are permitted in terms of the conditions of contract.*

Financial consequences: *The amendments to contracts detailed in the committee paper will result in no additional costs to SPT in 2017/18 as these costs were already included in projections.*

Personnel consequences: *None.*

Equalities consequences: *None.*

Risk consequences: *None.*

Eric Stewart
Assistant Chief Executive (Operations)

Gordon MacLennan
Chief Executive
