2. Background to report

The Chartered Institute of Public Finance and Accountancy (CIPFA) published practical guidance on the function and operation of audit committees in public bodies. This standard setter guidance states:

'The purpose of an audit committee is to provide to those charged with governance independent assurance on the adequacy of the risk management framework, the internal control environment and the integrity of the financial reporting and annual governance processes.'

The guidance adds that the principal areas where the audit committee can add value are:

- promoting the principles of good governance and their application to decision making;
- raising awareness of the need for sound internal control and contributing to the development of an effective control environment;
- supporting arrangements for the governance of risk and for effective arrangements to manage risks;
- advising on the adequacy of the assurance framework and considering whether assurance is deployed efficiently and effectively;
- reinforcing the objectivity, importance and independence of internal audit and external audit and therefore the effectiveness of the audit functions;
- aiding the achievement of the authority's goals and objectives through helping ensure appropriate governance, risk, control and assurance arrangements;
- supporting the development of robust arrangements for ensuring value for money helping the organisation to implement the values of ethical governance, including effective arrangements for countering risks of fraud and corruption;

- promoting measures to improve transparency and accountability and effective public reporting to the authority’s stakeholders and the local community.
