Committee report

Monitoring report on public transport services in the SPT area

Committee Operations Committee

Date of meeting20 January 2017Date of report12 January 2017

Report by Assistant Chief Executive (Operations)

1. Object of report

To inform the committee of the latest trends in the numbers of passengers carried and the reliability and punctuality of the public transport services provided directly and supported by SPT and the ScotRail services operating in the SPT area.

2. Background

The report presents statistics on all public transport services supported by SPT and on the ScotRail services operating in the SPT area, up to financial period 9 (10 December 2016) for Subway and ScotRail and up to the 4 weekly period ending 26 November 2016 for other SPT services. The layout of the report continues previous practice for the main areas but also includes newly collated statistics relating to SPT's plans for bus improvements. The report will continue to develop as new information is incorporated. With the exception of Subway data, ScotRail data, Fleet Profile data and the Bus Action Plan table, the data in the other sections of the report has been aligned to four weekly traffic return dates (every 4 weekly period from year 2012/13 will contain 28 days) with effect from 25 March 2012.

3. Content and detail

This report has been compiled on the basis of information supplied by the relevant operator/department responsible for each of the services or, where appropriate, by the relevant SPT information technology records. The following pages show the monitoring report based on the information available and received up to financial period 9 (10 December 2016) for Subway and ScotRail and up to the 4 weekly period ending 26 November 2016 for all other SPT services.

Section 8	Subsidised local bus service vehicle inspections	Page 12
Section 9	SPT area ScotRail services	Page 13/14
Section 10	Committee action	Page 14

Section 11 Consequences

1. SPT Subway services

Patronage, reliability and Park & Ride figures have been received up to the financial period ending 10 December 2016.

1.1 Subway patronage

Table 1A below details the trend of passenger patronage on SPT Subway services.

The patronage figures for financial periods 8 and 9 are 1.05M and 1.11M respectively. This is 5.60% and 0.58% less than the figures for the corresponding periods in the previous year. While patronage numbers have been less than expected following the suspension during the summer period the decline is beginning to show slight signs of recovery during period 9 when compared with period 8. Various actions are being undertaken to minimise any further impact and recover to previous levels.

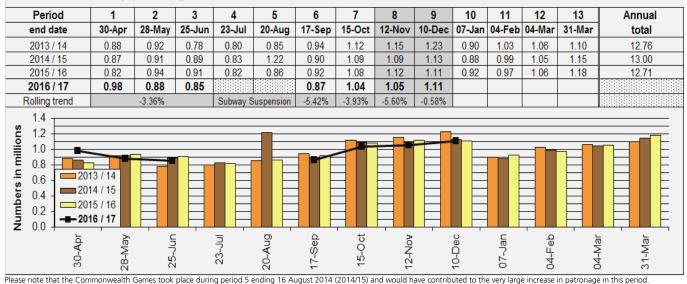

Table 1A. Subway patronage in millions.

1.2 Subway reliability

Table 1B below details the trend in reliability on SPT Subway services.

Reliability. Table 1B. The train reliability figures for periods 8 and 9 are 99.2% and 98.76% respectively. Periods 8 and 9 have shown an increase when compared with the figures for the corresponding periods in the previous year. The figure for period 8 is higher than the Subway reliability target of 99.0% however the period 9 figure is 0.24% lower than the target figure.

Table 1B. Subway reliability, actual miles travelled by trains as a % of scheduled mileage.

1.3 Subway main incidents

The main incidents section below provides details of particular causes of suspensions up to the period ending 10 December 2016 as follows:

Period ending 12 November 2016

On 10 November there was a 24 minute delay to services on the Inner Circle at 07:40 hrs due to a defective train at Shields Road.

Period ending 10 December 2016

On 16 November at 02:20 hrs until 18:00 hrs Shields Rd station was closed by Police Scotland due to an ongoing incident. This would have had an adverse impact on both patronage and the Park and Ride figures for that day.

On 19 November services were stopped on both Circles for approximately 20 minutes at 20:05 hrs due to reports of a suspicious package on a train at West Street. This was found to be a false alarm.

On 24 November the Inner Circle was suspended for approximately 24 minutes at 07:45 hrs due to a defective train at Cessnock.

On 28 November both Circles were stopped for approximately 24 minutes at 07:38 hrs due to a defective insulator at Ibrox.

1.4 Park and Ride

Table 1C below details the trend in parking totals at Subway station Park and Ride facilities.

The Park and Ride figures for periods 8 and 9 are 23,303 and 24,674 respectively. Period 8 shows an increase of 0.21% while period 9 shows a decrease of 2.41% when compared with the figures for the corresponding periods in the previous year.

2. Gourock - Kilcreggan ferry patronage

Table 2 below details the trend of 4 weekly passenger patronage on the Gourock - Kilcreggan ferry. Figures have been received up to the 4 weekly period ending 26 November 2016.

The patronage figures for the 4 weekly periods ending 1 October 2016, 29 October 2016 and 26 November 2016 at 4,004, 4,205 and 3,856 are decreases of 14.9% and 3.0% and an increase of 20.5% respectively when compared with the figures for the corresponding periods in the previous year. The decrease in the period ending 1 October 2016 can be partly attributed to 36 cancelled sailings as a result of adverse weather on 2 days during this period and the decrease in the period ending 29 October 2016 can be partly attributed to 5 cancelled sailings as a result of a technical issue on 1 day during this period.

Table 2. Gourock / Kilcreggan patronage. 4 weekly end date 16-Apr | 14-May | 11-Jun | 09-Jul | 06-Aug | 03-Sep 01-Oct 29-Oct 26-Nov 24-Dec 21-Jan 18-Feb 18-Mar Annual total 2013/14 4,000 4,291 4,661 5,251 5,975 5,428 4,734 4,741 4,725 2,770 3,282 3,533 3,584 56,975 4,576 3,245 5 608 4,679 3,881 2,761 2,124 3,687 54 430 2014 / 15 4.446 4.836 5.187 5.532 3.868 2015/16 4,138 4,425 4,811 4,695 5,288 5,339 4,707 4,336 3,201 2,437 2,813 3,072 4,363 53,625 Trend -6.9% -3.3% -0.5% -9.5% -5.7% -3.5% 0.6% 11.7% -17.2% -11.7% 32.4% -16.7% 34.5% Moving annual total 2016 / 17 4,333 4,784 4,004 3,856 53,403 4,735 4,243 5,291 5,267 4,205 Trend 4.7% 7.0% -0.6% -9.6% 0.1% -14.9% 20.5% -1.3% -3.0% 8,000 Number of passengers 6,000 4,000 2013 / 14 2014 / 15 2,000 2015 / 16 -2016 / 17 -0 06-Aug 03-Sep luL-60 26-Nov 21-Jan 11-Jun 29-Oct 24-Dec 18-Feb 18-Mar 16-Apr I4-May 01-Oct

The moving annual total of 53,403 is lower than the totals shown for the last 3 years and it is also lower than the revised target figure of 55,000 for 2016/17.

3. Supported bus services

Tables 3 A, B, C and D below detail the statistics by 4 weekly period for local and schools local services supported by the authority.

Lost mileage statistics quoted in this report are received direct from bus operators on a self-certified basis. The figures encompass supported local, and combined schools local services only, and exclude lost mileage on dedicated school services.

Please note that up until the 4 weekly period ending 14 June 2014 passenger numbers on local bus services operated by Community Transport groups was recorded in the MyBus section of this report. This has been removed from the MyBus graph on page 8 from this period and is now included in the supported bus services patronage section below. Community Bus Service mileage has been included in calculations from 15 June 2014.

3.1 Supported bus services patronage

The patronage figures for the 4 weekly periods ending 1 October 2016 and 29 October 2016 at 452,362 and 446,303 are decreases of 2.5% and 1.7% whilst the figure for the 4 weekly period ending 26 November 2016 at 447,030 is an increase of 2.5% respectively when compared with the figures for the corresponding periods in the previous year.

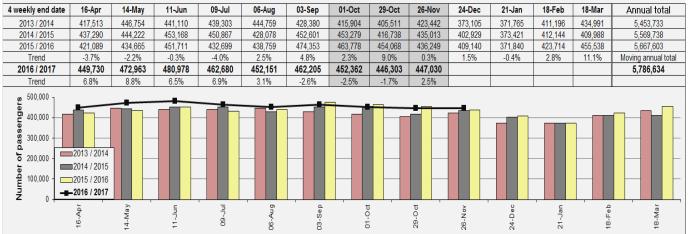

Table 3A. Patronage on supported bus services.

3.2 Supported services scheduled mileage

The scheduled supported bus mileage for the 4 weekly periods ending 1 October 2016, 29 October 2016 and 26 November 2016 at 615,564, 607,337 and 613,663 are all decreases of 2.4%, 2.6% and 2.2% respectively when compared with the figures for the corresponding periods in the previous year.

	3 / 2014 4 / 2015 5 / 2016 6 / 2017		11-Lun		Bny-90	G.S.Cep	01-Oct		2g-Oct	26-Nov	24-Dec	21-Jan		18-Feb

Table 3C. Passengers per mile on supported bus services.

The moving annual average of 0.716 is slightly higher than the figure shown for last year but it is below the target figure of 0.725 for passengers per mile on supported bus services for 2016/17.

3.4 Lost mileage of supported bus contracts

The lost mileage figure for the 4 weekly period ending 1 October 2016 has remained similar at 0.09% whilst the figures for the 4 weekly periods ending 29 October 2016 and 26 November 2016 both at 0.13% are increases respectively when compared with the figures for the corresponding periods in the previous year.

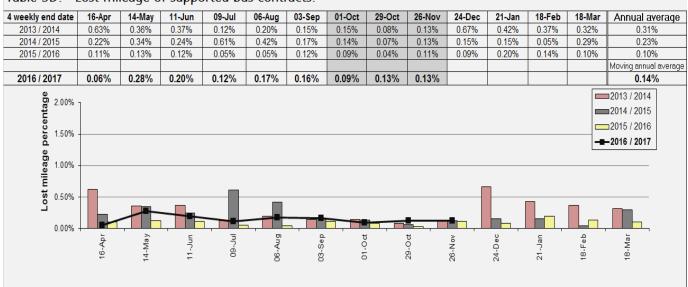

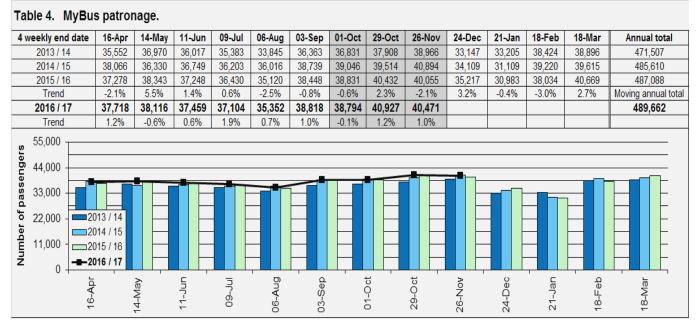

Table 3D. Lost mileage of supported bus contracts.

4. MyBus

Table 4 below details the trend of 4 weekly passenger patronage on SPT's MyBus services. Figures have been received up to the 4 weekly period ending 26 November 2016.

The patronage figures for the 4 weekly periods ending 1 October 2016, 29 October 2016 and 26 November 2016 at 38,794, 40,927 and 40,471 are a decrease of 0.1% and increases of 1.2% and 1.0% respectively when compared with the figures for the corresponding periods in the previous year.

The moving annual total of 489,662 is higher than the figures shown for the last 3 years but it is lower than the target figure of 490,000 for 2016/17.

5. Update on SPT's Bus Strategy

A Strategic Priority of the Regional Transport Strategy (RTS) is to 'deliver a step-change for bus services, standards and infrastructure' for the west of Scotland.

SPT has for many years been working with partners to seek to deliver this, including through the original Five Point Plan on which progress has previously been noted in the report. Building on this, and in continued furtherance of the RTS, in September 2014, an updated Bus Strategy and Outline Investment Programme was approved by the SPT board.

Noted below are some of the examples of progress towards the key themes of the Bus Strategy and Outline Investment Programme. As can be seen, progress has been very positive although there still remains much to be done.

- Delivering a comprehensive network
 - o SPT support in full or in part around 30% of local bus services in the west of Scotland.
 - o MyBus patronage at highest ever level circa 500,000 passengers per annum.
 - Through and in partnership with members of the West of Scotland Community Transport Network, SPT continues to fund innovative solutions to bridge socially necessary gaps in local transport provision, through community transport.
- Maximising network performance and standards
 - The first 5 Statutory Quality Partnerships in Scotland Glasgow, Paisley, Ayr/Prestwick, Inverclyde and Fastlink were led and created by SPT and member councils.
 - Deliver on the establishment of a Strathclyde Bus Alliance in an attempt to arrest the decline in bus patronage.
- Integrating the network
 - SPT continuing to liaise with Clyde Valley councils regarding development and delivery of City Deal projects to integrate with new or current infrastructure and services.
 - Queen Elizabeth University Hospital local bus services continue to show stability with, 51 local bus services per hour at peak, up from 14 services per hour.
 - o Govan Interchange now fully operational as of 21 August 2016.

- o Partick Interchange improvement programme to commence Summer 2017.
- Promoting the network
 - Regional Real Time Passenger Information project currently in development, with a projected implementation in Spring 2017.
- Ensuring a safe and secure network
 - On-going positive relationship with Police Scotland for major events e.g. British Transplant Games, Summer 2017.
- Delivering a greener network
 - SPT, with funding provided by and on behalf of Glasgow City Council, has delivered the first fully electric bus service in the west of Scotland, the service 100 from Glasgow City Centre to the Riverside Museum.

Table 5 shows the current status of SPT's bus action plan.

Unitary Authority	Statutory Quality Partnerships	Bus Stop Infrastructu Managed I Stops			nation bliance iance +/-	Information Compliance Comments
Argyll & Bute	No formal SQP.	Yes (part area)	No	95%		Information compliance audits are in progress and discussions are underway with local bus operators to establish appropriate Service Level Agreements (SLAs)

East Renfrewshire	No formal SQP.	Yes	*Yes – (C) From 01/06/15	95%		Information compliance audits are in progress and discussions are underway with local bus operators to establish appropriate Service Level Agreements (SLAs).
Glasgow City Council	The Statutory Quality Partnership Scheme for Glasgow Streamline Quality Bus Routes commenced 01/04/12 to operate for a period of 7 years. Monitoring on-going. There has been a measureable improvement in the quality of bus infrastructure and buses operating within the SQP area. The SQP board has been established including representatives from SPT, GCC, Bus Operators and the Confederation of Passenger Transport. SQP monitoring reports are produced annually and, following approvals, shared with key stakeholders. Additionally, the Statutory Quality Partnership Scheme for Fastlink was formally approved by SPT Chair's Committee on 13 th March 2015 and GCC Executive Committee on 19 th March 2015. The Scheme commenced on Sunday 28 June 2015.	Yes	*Yes – (A)	80%	+1%	Information compliance audits are in progress and discussions are underway with local bus operators to establish appropriate Service Level Agreements (SLAs)
Inverclyde	The Statutory Quality Partnership Scheme for Inverclyde commenced 12/07/15 to operate for a period of 5 years. Review of potential future measures currently under consideration, with agreed amendments subject to reporting. Information gathering exercise has commenced in relation to the annual report, which will be based on the broad parameters of the Glasgow report.	Yes	*Yes – (C)	95%		Information compliance audits are in progress and discussions are underway with local bus operators to establish appropriate Service Level Agreements (SLAs)
North Ayrshire	No formal SQP.	Yes	*Yes – (C)	95%		Information compliance audits are in progress and discussions are underway with local bus operators to establish appropriate Service Level Agreements (SLAs)
North Lanarkshire	No formal SQP.	Yes	No	82%		Information compliance audits are in progress and discussions are underway with local bus operators to establish

						appropriate Service Level Agreements (SLAs)
Renfrewshire	The Statutory Quality Partnership Scheme for Paisley Town Centre set a benchmark for future Partnerships. The Scheme commenced 07/03/11 and concluded after five years. The consequence of which went far beyond the geographical boundaries of the agreement. The Scheme set out to address imbalances in operating standards, infrastructure and acknowledge concerns in air quality within Paisley Town Centre. These objectives set in motion a step change for local bus travel, with a measurable improvement in bus quality, operating standards, infrastructure and air quality. Key aspirations fulfilled, Paisley Town Centre and surrounding areas still benefit from such a Partnership approach, with future developments reflecting recent investment in the area.	Yes	No	83%	+1%	are in progress and discussions are underway with local bus operators to establish appropriate Service Level Agreements (SLAs)
South Ayrshire	The Statutory Quality Partnership Scheme for Ayr and Prestwick commenced 04/03/13 to operate for a period of 5 years. Review of potential future measures currently under consideration, with agreed amendments subject to reporting. Information gathering exercise has commenced in relation to the annual report, which will be based on the broad parameters of the Glasgow report.	Yes	*Yes – (C)	80%		Information compliance audits are in progress and discussions are underway with local bus operators to establish appropriate Service Level Agreements (SLAs)
South Lanarkshire	No formal SQP.	Yes	*Yes – (A)	79%		Information compliance audits are in progress and discussions are underway with local bus operators to establish appropriate Service Level Agreements (SLAs)
West Dunbartonshire	No formal SQP.	Yes	*Yes – (C)	95%		Information compliance audits are in progress and discussions are underway with local bus operators to establish appropriate Service Level Agreements (SLAs)

*Yes – (A) = non-advertising shelters only, (B) = advertising shelters only, (C) = advertising and non-advertising shelters.

6. SPT regulating statistics

SPT's Compliance Inspectors carry out monitoring across all 11 councils within the SPT area and report back instances of non-compliance, including engine idling, parking issues or missing information. The Compliance Inspectors work with drivers and draw to their attention, when possible, to any failures that are found and/or submit reports, the form and content of which has been agreed with the Office of the Traffic Commissioner. This may lead to formal action being taken by the Traffic Commissioner.

Reports on engine idling can be sent to the relevant council department that deals with environmental issues. Reports on MyBus services following checks are forwarded to the DRT team to ensure the standard of service being provided by operators meets with expected standards. Monitoring arising from local service complaints that the Compliance Inspectors are requested to investigate are also included.

The summary table below (Table 6) highlights instances of non-compliance by bus operators, and includes reports for specific local regulations including the Glasgow, Paisley and Coatbridge Traffic Regulation Conditions and the Glasgow, Fastlink and Ayr & Prestwick Statutory Quality Partnerships up to the 4 weekly period ending 26 November 2016.

A detailed report of non-compliance categories/checks for each local authority area can be provided on request. This includes the number of day/half days the Compliance Inspectors spend in each council area undertaking routine monitoring and/or specific local service monitoring. Routine monitoring is carried out to ensure continued compliance by bus operators and their drivers and the high level of compliance is reflected by the very low number of breaches found. Specific monitoring is undertaken after complaints have been received.

7. Fleet profile of bus operators within the SPT area

To keep members informed of the latest trends in the bus industry within the SPT area, it is intended to provide bus fleet details for each level of vehicle emission standards and for number of vehicles complying with the Equality Act 2010 and subsequent Public Service Vehicle Accessibility Regulations. The tables below are based on information that has been returned to us by operators following a survey of bus operators. This survey has now been re-issued and we now have the relevant details of 46 operators. The operators who have not responded have been re-contacted with a further request for the information to be provided. These statistics will be provided twice yearly.

7.1 Euro standards

Members are asked to note that SPT's policy of procuring only vehicles which comply with the Equality Act including a number of hybrid vehicles, has contributed to a 10.9% increase in vehicles with engine emission standards of Euro 3 or better and Equality Act compliant categories. All buses procured and leased to operators by SPT are fully compliant with Equalities legislation.

Please note that the "mini" category in Table 7B above includes vehicles with varied seating capacity, including vehicles with up to 22 seats.

8. Subsidised local bus service vehicle inspections

Table 8 contains statistics relating to checks carried out on operators and their vehicles used on supported bus services up to the 4 weekly period ending 26 November 2016. In addition to these inspections, a rigorous programme of operator and vehicle inspection is also carried out in relation to SPT administered school bus contracts. Defects are reported to the Traffic Commissioner when deemed relevant and are taken into account in the tendering process. The number of "S" marked immediate prohibitions are now shown in Table 8. An "S" marked prohibition is where the defect found is the result of a significant failure of the operator's maintenance system.

9. SPT area ScotRail services

Patronage, reliability and punctuality figures have been received up to period 9 ending 10 December 2016.

9.1 ScotRail patronage in the SPT area

Table 9A below details the trend of ScotRail passenger patronage on rail services in the SPT area.

The patronage figures for periods 7 and 8 at 5.46M and 5.48M are increases of 3.9% and 6.5% whilst period 9 at 5.76M is a decrease of 1.8% respectively when compared to the figures for the corresponding periods in the previous year.

Numbers	0.0 -	30-Apr	28-May												

The moving annual total of 63.50 million passenger journeys is higher than the figures shown for the last 3 years.

9.2 ScotRail reliability and punctuality

Table 9B below details the trend in reliability as a percentage of timetabled trains on ScotRail services in the SPT area. Table 9C details the rail Public Performance Measure (PPM).

Cancellations. Table 9B. The train cancellation figure for period 7 at 2.42% is an increase whilst the figures for periods 8 and 9 at 2.79% and 3.34% are decreases when compared to the figures for the corresponding periods in the previous year.

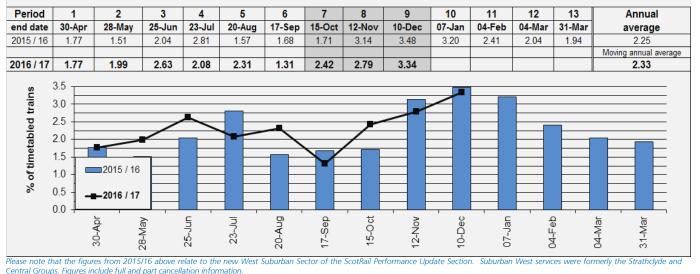

Table 9B. ScotRail cancellations for West Suburban Sector, as a % of timetabled trains.

The moving annual average for cancellations at 2.33% is slightly above the figure shown for last year. **Public Performance Measure (PPM)**. Table 9C. The standard measure throughout Great Britain for measuring train service performance is the PPM and it is made up from both punctuality and reliability data. The PPM is the percentage of booked services which arrive within 5 minutes of their booked arrival time, having called at all booked stations on the route. The PPM figure for period 7 at 90.73% is a decrease whilst the figures for periods 8 and 9 at 88.53% and 85.28% are increases when compared to the figures for the corresponding periods in the previous year.

Suburban West services were formerly the Strathclyde and

Table 9C. Public Performance Measure (PPM) for West Suburban Sector - the percentage of booked services which arrive within 5 minutes of their booked arrival time, having called at all booked stations on the route.

Central Groups.

The moving annual average for PPM at 90.77% is slightly below the figure shown for last year.

The main incidents section below details particular causes of cancellations and delays.

9.3 ScotRail main incidents

The main incidents which have been reported up to and including 10 December 2016 are:

<u>Period 7.</u> On Friday 23 September services were affected by a signalling failure between Glasgow Central and Crossmyloof.

On Tuesday 4 October services were affected by a fallen tree on the line at Hyndland.

On Wednesday 12 October a points failure occurred at Glasgow Queen Street.

Period 8. On Wednesday 26 October a train failure occurred at Westerton.

On Wednesday 2 November a signalling failure occurred at Glasgow Central.

On Monday 7 November a points failure occurred at Glasgow Central.

<u>Period 9.</u> On Wednesday 23 November services were affected by damage to the overhead lines at Glasgow Exhibition Centre.

On Thursday 24 November a points failure occurred at Glasgow Central.

Assistant Chief Executive (Operations)

On Friday 2 December a train failure occurred at Charing Cross.

10. Committee action

The committee is asked to note the patronage, reliability, punctuality, regulating and fleet profile statistics as contained in this report.

11. Consequences

Title

Policy consequences:	None							
Legal consequences:	None							
Financial consequences:	As a measure of the quality of performance of services supported by SPT, it directs attention to possible financial implications. It enables SPT to work with Scottish Ministers in scrutinising and assessing "value for money" invested in rail services.							
Personnel consequences:	None							
Equalities consequences:	The concepts of supported services and social inclusion are directly related.							
Risk consequences:	None							
Name Eric Stewart	Name Gordon Maclennan							

For further information, please contact: Gerry Irvine, Ops and Security Manager (Bus) on 0141-333-3217.
